

Frequently Asked Questions

- 1. Turn Off Alarm with Black Remote (Unlock)**
- 2. Open Front Gate & Garage Door with Blue Remote**

How do I turn off the alarm?

You MUST turn off the alarm FIRST before you open the gate or doors. The alarm is the UNLOCK button on the Black remote. This must be done prior to opening any door; even the garage door.

This can be done by aiming the remote at the outside Blue Alarm Light located on the top left of the garage door. It will beep a few times and the light will flash. (The same procedure applies when activating the alarm)

How do I open the Garage Door?

The Blue Remote opens the Front Gate and Garage Door

How do I open the front door?

Use the round silver key and place it over the round hole in the panel to the right of the large front door?

How do I dim or lighten the lights?

Press the light button you want to dim or lighten and the lights will gradually dim or lighten to your liking.
